FIG. 19

FIG. 19 is a cross-sectional view of a medical device, likely a catheter, inserted into a body cavity. The device has a central shaft (210) with a distal tip (206) and a side opening (208). The device is surrounded by a sheath (202) and a balloon (204). The device is positioned within a cavity (22) and is surrounded by tissue (24, 26, 28, 30, 32, 44, 46, 48, 50, 52). The device is shown in a curved position, with the distal tip (206) pointing towards the right side of the image.
